Keep.eu

Intro: How to make the most of this webinar

Rafael F. Agostinho | 28.01.2025

How to make the most of this webinar

Please feel free to write any questions or requests in the Q&A or to just raise your hand and speak when the moderator gives you the floor.

You do not need to take notes because we will make our presentations available to you.

Please keep your microphone muted until the moderator gives you the floor.

How to make the most of this webinar

Who will be delivering it

Rafael Agostinho (product and project manager)

Education: Communication, management. Before joining Interact: Communications, project manager, management consultant.

Janne Kiilunen (technical manager)

Education: Telecommunications. Before joining Interact: Telecommunications (coordination, project planning and software specialist work).

Elisa Bertieri (data manager)

Education: Political science. Before joining Interact: Communication management.

Webinar: Keep.eu

Keep.eu: What's in it for you and your programme

Rafael F. Agostinho | 28.01.2025

Keep.eu's mission

Originally KEEP, Knowledge and Expertise in European Programmes.

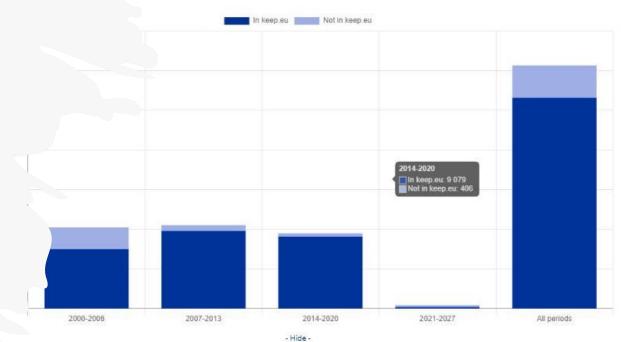

Set up by Interact in 2009, in consultation with Interreg programmes and the European Commission. First online in 2011.

eu vorsus the sector (%)

orojects in the database with the overall number of actual projects. The latter is collected manually from all the Interreg eve. , three months. Be sure to check the dates on the top-right side of this page to understand when the last count was and when

Yeep.eu focuses on contracted projects. Representativeness per project thus shows, as much as possible, how many contracted projects "sus overall. However, some programmes show on their websites the number of approved projects only. In these cases, ckoned with the number of approved projects in the denominator. We thus tend to show an apparent representativeness rate of "a real one.

gures feeding the chart, click the link right below it. For full detail on the representativeness of each project field (per programme), use the Export to Excel button (button to the right of this text, temporarily disabled for technical reasons on

Keep.eu's mission

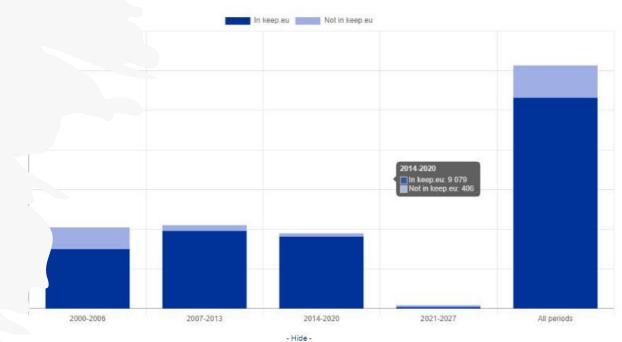

To collect, curate, <u>aggregate</u>, publish and <u>distribute</u> data and meta-data on Interreg and Interreg-related current and past projects, partners and programmes, for the benefit of Interreg and its direct (professional) stakeholders.

eu varsus the sector (%)

orojects in the database with the overall number of actual projects. The latter is collected manually from all the Interreg eve., three months. Be sure to check the dates on the top-right side of this page to understand when the last count was and when

Keep.eu's mission

Basic (data) layer for:

- Project management (ideas, documentation from previous projects, partner finding, ...)
- Programme management (looking out for similar programmes, understanding previous projects in the area, ...)
- Communication (project documentation, thematic x geographic project finding, ...)'

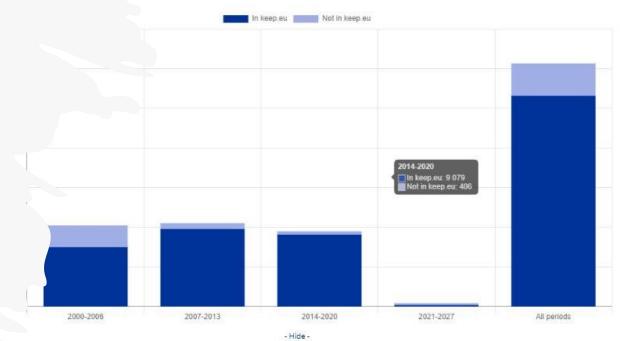

. . .

eu vorsus the sector (%)

27 078

Keep.eu's challenges are those of a knowledge-management tool

Challenges of data integrity

- Accessibility. (Are the data easily available?)
- **Completeness.** (Are the data complete? Are critical data fields populated?)
- Correctness. (Are formats as expected? Is the format consistent?)
- **Timeliness.** (Are the data updated, timely delivered, compared and aggregated?)
- **Synchronisation.** (Do proper links exist? Are data relationships consistent?)
- Usage. (Are data effectively used and relevant?)

Keep.eu

Keep.eu: Quick overview of contents

Rafael F. Agostinho | 28.01.2025

Webinar: Keep.eu

Keep.eu: Coming up (a quick rundown)

Rafael F. Agostinho | 28.01.2025

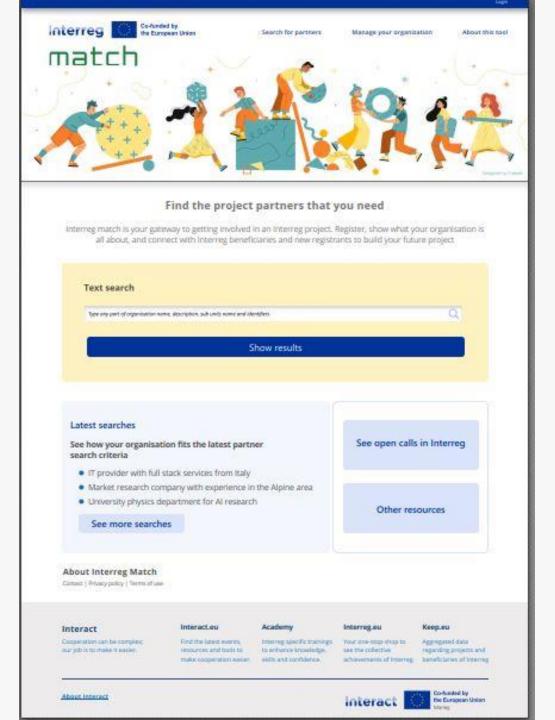

Keep.eu: Coming up (a quick rundown)

More support to programmes: One-to-one meetings.

Keep.eu's API.

Interreg Match, a new partner-search platform.

Keep.eu: Coming up (a quick rundown)

More support to programmes: One-to-one meetings.

Keep.eu's API.

Interreg Match, a new partner-search platform.

Direct updating of projects and uploading of documents into keep.eu by programmes.

New tutorials and short courses for keep.eu's users.

Proxy of good practices and project connections.

Webinar on keep.eu: API & more

Keep.eu's API: What it includes, how it can be used, examples of use

Janne Kiilunen | 28.01.2025

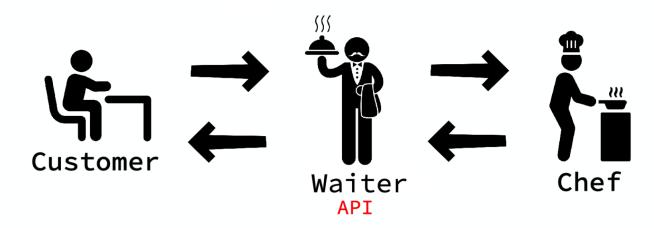

What is an API?

An application programming interface (API) is a way for two or more computer programs to communicate with each other

API receives a request

Similar to how a waiter takes an order from a customer to relay to the chef

API collects and processes a response, then returns with that response

As a waiter would return the completed meal from the chef to the customer

What is an API?

Human to human

Express thoughts, needs, ideas, through language (written or spoken), gestures or expressions.

Human to machine

User Interface (UI) components needed, screen, keyboard, mouse, etc.

Machine to machine

No need for graphical elements but machine-readable interfaces called API.

What is keep.eu API?

A new API Web service allows access to data from keep.eu in an Open Data standard way. Keep.eu API enables user to retrieve information about programmes, projects, partnerships and open calls with ease.

API key

Example of keep.eu's API json-file?

Who will benefit from keep.eu's API?

Interreg programmes

Building for example statistics, maps or any other elements to their websites.

Other platforms

For example Kohesio and interreg.eu

Researchers, thinktanks, consultancies

Accessing the whole keep.eu dataset or filtering the information based on the need.

Others

Member state representatives, National contact points, European Commission, etc.

How to benefit from keep.eu's API? - examples

Capitalisation

Getting a timeline of programme's investments from all programming periods, e.g. how many piers were built from year 2000 to date.

Maps, charts and other graphical elements

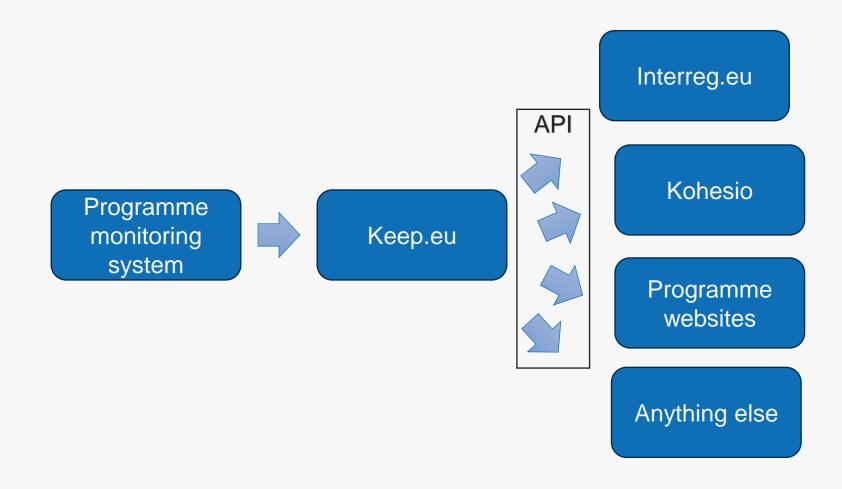

Building maps, charts, etc from indicators in use, which themes are covered, how partners are collaborating between countries, etc.

Cooperation between programmes

Which projects continued from other programmes projects' and took the best practices into use, which programmes are working in the same regions under certain theme (e.g. Cultural heritage and arts), etc.

How do the platforms connect to each other?

How to get access to keep.eu API?

Register to keep.eu or log in to keep.eu with your Interact account

Send an email requesting access to keep.eu API to keep.support@interact.eu

Access will be granted and instructions provided how to use the keep.eu API

Terms of use of keep.eu data

Users are free to copy and redistribute the data, images, charts, maps and files obtained from keep.eu in any medium or format, and to build upon them for any lawful purpose. When using any of the mentioned material, users must give appropriate credit to keep.eu, provide a link to keep.eu and indicate if changes were made, further to any other reference that is required and indicated in the materials themselves. This can be done in any reasonable manner, but not in any way that suggests that the source (keep.eu) or its proprietor (Interact) endorses the user of this material or its use.

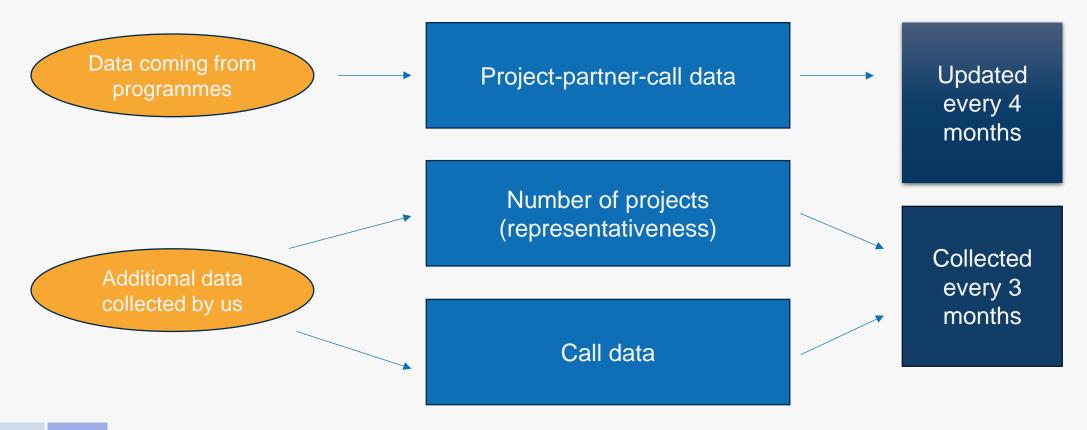

Webinar on keep.eu: API & more

State of play of data, main issues; fields on prizes and mentions and on project links

Elisa Bertieri | Interact | 28.01.2025

What kind of data we collect?

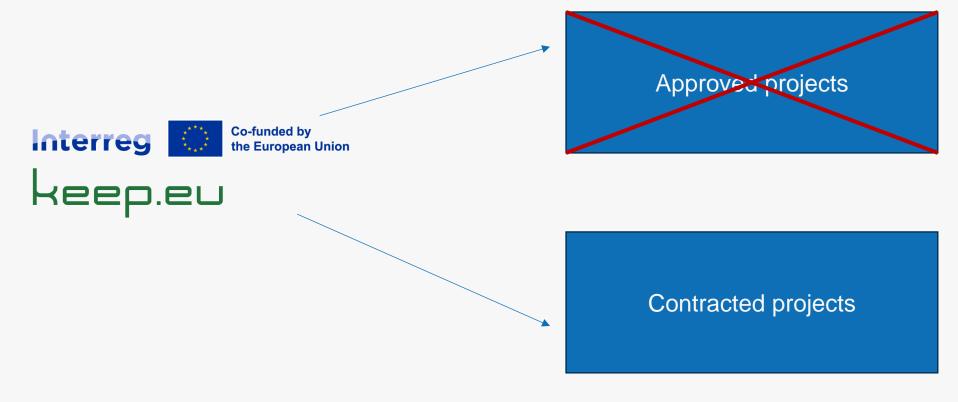

Representativeness

Information on this programme's project and partner data in keep.eu	
Last month that keep.eu received data from the Programme or retrieved it from the Programme's website	9-2024
Foreseen date of new project-partner-call data importing	3-1-2025
Fields missing in data supplied by this programme	Download detailed Excel file with each programme's fill-out rate, per project field. Download detailed Excel file with each programme's fill-out rate, per partner field.
Language of the data in keep.eu	English, French, Italian (see challenge of language detection)
No. of projects in keep.eu / Total no. of projects (% of projects in keep.eu)	37 / 37 (100%)
No. of project partners in keep.eu / Total no. of project partners (% of project partners in keep.eu)	281 / 281 (100%)
Notes on the data	Source of estimation of the number of projects as of 2024-02-26: Website of the programme Method for estimating the number of partners as of 2024-05-31: Average partners per project based on the average of the previous period. Programme's webpage last visited on 204-08-30.
Source of the data in keep.eu	Programme's Jems.

Only contracted projects feature on keep.eu

How to add project relations in jems

Add exact fields names

Relevant precedent project 1 to N (relevant_precedent_projects

This is considered a critical field, albeit not mandatory since a project may not have any clear relationship with other, precedent, projects

Description (useful links): HIT Application form (Final version 1.1 – November 2021), table C.2.6, field 'Project or initiative'(link to download HIT 2021-2027 Selection Package)

Name of field in programmes' lists of operations: Relevant precedent operation

Relevant subsequent project 1 to N (*relevant_subsequent_projects*)

This is considered a critical field, albeit not mandatory since a project may not have any clear relationship with other, subsequent, projects

Description (useful links): HIT Application form (Final version 1.1 – November 2021), table C.2.6, field 'Project or initiative' (link to download HIT 2021-2027 Selection Package)

Name of field in programmes' lists of operations: Relevant subsequent operation

Project hierarchy (*hierarchy*)

This is considered a critical field, albeit not mandatory since a project may not be part of a set of interrelated projects

Description: If the project is a sub-project, this field is meant to specify and link it to the overall project

Name of field in programmes' lists of operations: Operation hierarchy

Project relations

How project relations look in keep.eu

Summary

Project name (EN): Sustainable urban freight transport with autonomous:

Project acronym: AVATAR
Project start date: 2020-05-01
Project end date: 2023-06-30
Project status: closed

Relevant subsequent projects:

- Connected River
- DT4GS, Horizon
- FAST, Research institution
- MAGPIE. Research institution

Relevant linked projects:

• NOVIMAR, Horizon 2020

Total budget/expenditure: EUR 2 830 541.00 Total EU funding (amount): EUR 1 415 270.00 Co-financing sources:
