Management verifications in Interreg

03 June 2025

Athens | Greece

Outlines

Interact organises this recurring event with our colleagues from the Managing Authority INTERREG 2021-2027, Unit C "Management Verifications" based in Thessaloniki, Greece.

Objectives

The objective of the workshop is to discuss and present the methodology for risk-based management verifications developed by the Managing Authority, which applies to the entire programme. The event also aims to provide a platform for participants to engage in productive discussions and exchange ideas related to challenges from management verification in 2021-2027, control of simplified cost options, and Harmonised Implementation Tools developed by Interact toward the relevant programmes' documents concerning management verifications. We will also discuss and evaluate the control during 2014-2020, including cases from the activity of control, irregularities, and financial corrections that could be avoided.

Who is this meeting for?

The target group is the staff of the different authorities of the Interreg programmes: MAs, AAs, JSs, NAs and Controllers.

Kindly note that participation in this meeting is by invitation only.

How to register?

As usual, please access the following [link](#) using your Interact account login credentials.

About the network

The network that started in 2018 with physical meetings in Thessaloniki, Greece, is composed of the following Interreg programs: INTERREG VI-A "Greece-Bulgaria", "Greece-Italy", and "Greece-Cyprus" CBC programmes INTERREG IPA "Greece-Albania" and "Greece-North Macedonia". The network adopts a problem-solving approach, primarily focusing on facilitating information exchange, sharing experiences, best practices and lessons learned from management verifications while ensuring the transfer of fundamental knowledge to the programmes' controllers - the "train the trainer" part.
