Post 2027 | Consultation Report

4a. Enlargement (IPA)

14 January 2025

Interreg IPA

This subject specific report is an annex to the External cooperation report (Interreg and its role in EU external cooperation), and is part of Interact's Post 2027 Consultation reports
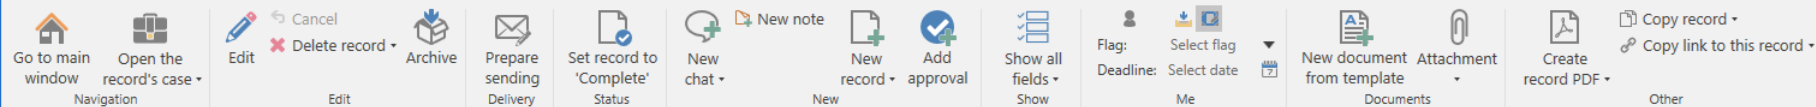

Overview

The Interreg IPA programmes' scope is the convergence of European integration and cross-border cooperation, uniquely bridging EU member states and pre-accession countries. These programmes foster partnerships that promote shared growth, stability and development in the regions of Western Balkans and Türkiye. By addressing common challenges - from economic disparities to environmental sustainability - Interreg IPA programmes empower local communities and institutions to build and strengthen their capacities to collaborate, learn and innovate together. They serve as essential mechanisms for preparing candidate countries for EU membership by enhancing institutional capacities, harmonizing standards, and building trust and connections across borders.

Alongside supporting the integration process, Interreg IPA programmes contribute to key EU policies, including green and digital transitions, sustainable tourism, cultural heritage preservation, and improved

F2 AI Assistant reply

Resumé af "Post 2027 | Consultation Report 4a. Enlargement (IPA)"

Oversigt

Interreg IPA-programmerne fokuserer på konvergensen mellem europæisk integration og grænseoverskridende samarbejde, især i Vestbalkan og Tyrkiet. Disse programmer fremmer partnerskaber, der stimulerer fælles vækst, stabilitet og udvikling ved at adressere fælles udfordringer som økonomiske uligheder og miljømæssig bæredygtighed. Programmerne spiller en afgørende rolle i forberedelsen af kandidatlande til EU-medlemskab ved at styrke institutionelle kapaciteter, harmonisere standarder og bygge tillid og forbindelser over grænser.

Metodologi

Rapporten opsummerer resultaterne af interviews med repræsentanter for Interreg IPA-programmer i forhold til den kommende regulative ramme efter 2027. Formålet er at informere fremtidige diskussioner om programmering af Interreg IPA.

Styrker i Interreg IPA-programmer

Resumo do "Relatório de Consulta Post 2027 | 4a. Ampliação (IPA)"

Visão Geral

Os programas Interreg IPA concentram-se na convergência da integração europeia e da cooperação transfronteiriça, especialmente nos Bálcãs Ocidentais e na Turquia. Esses programas promovem parcerias que estimulam o crescimento compartilhado, a estabilidade e o desenvolvimento ao abordar desafios comuns como disparidades econômicas e sustentabilidade ambiental. Os programas desempenham um papel crucial na preparação dos países candidatos para a adesão à UE, fortalecendo capacidades institucionais, harmonizando padrões e construindo confiança e conexões além das fronteiras.

Metodologia

Este relatório resume os resultados de entrevistas realizadas com representantes dos programas Interreg IPA em relação ao quadro regulamentar pós-2027. O

Speech for Delivery

Introduction

Ladies and Gentlemen,

Today, we gather to discuss a matter of significant importance: the Interreg IPA programmes. These programmes are not merely components of EU external cooperation; they serve as bridges between EU member states and pre-accession countries in the Western Balkans and Türkiye.

Let us take a moment to reflect on what these programmes signify for us. They forge connections that penetrate deeply into our communities, enabling us to address shared challenges together. From economic disparities to environmental sustainability, Interreg IPA programmes are our tools for fostering stability and prosperity in our regions.

What Works?

First, let us examine what is already functioning effectively:

Use case 2:
F2 AI Exspert

F2 AI Expert

An expert working on Predefined Information "the truth".

The predefined information is refined and maintained to keep a high level of truth. My Prompts are basically working on a specific defined Expert information.

Predefined "Expert" information could be:

- All applications not yet approved

- All applications approved

- All status reports

- All budgets

- All market evaluations

cBRAIN

F2 Infrastructure

User will "Tag" relevant information either manual or automatic as part of a process.

The "Tag" in this example is using "Keywords" for that specific "Truth". The Keyword can be removed.

The "tagged" information is transformed and placed in a Vector database. LLM server is using the Vector information as "Expert-information"

cBRAIN
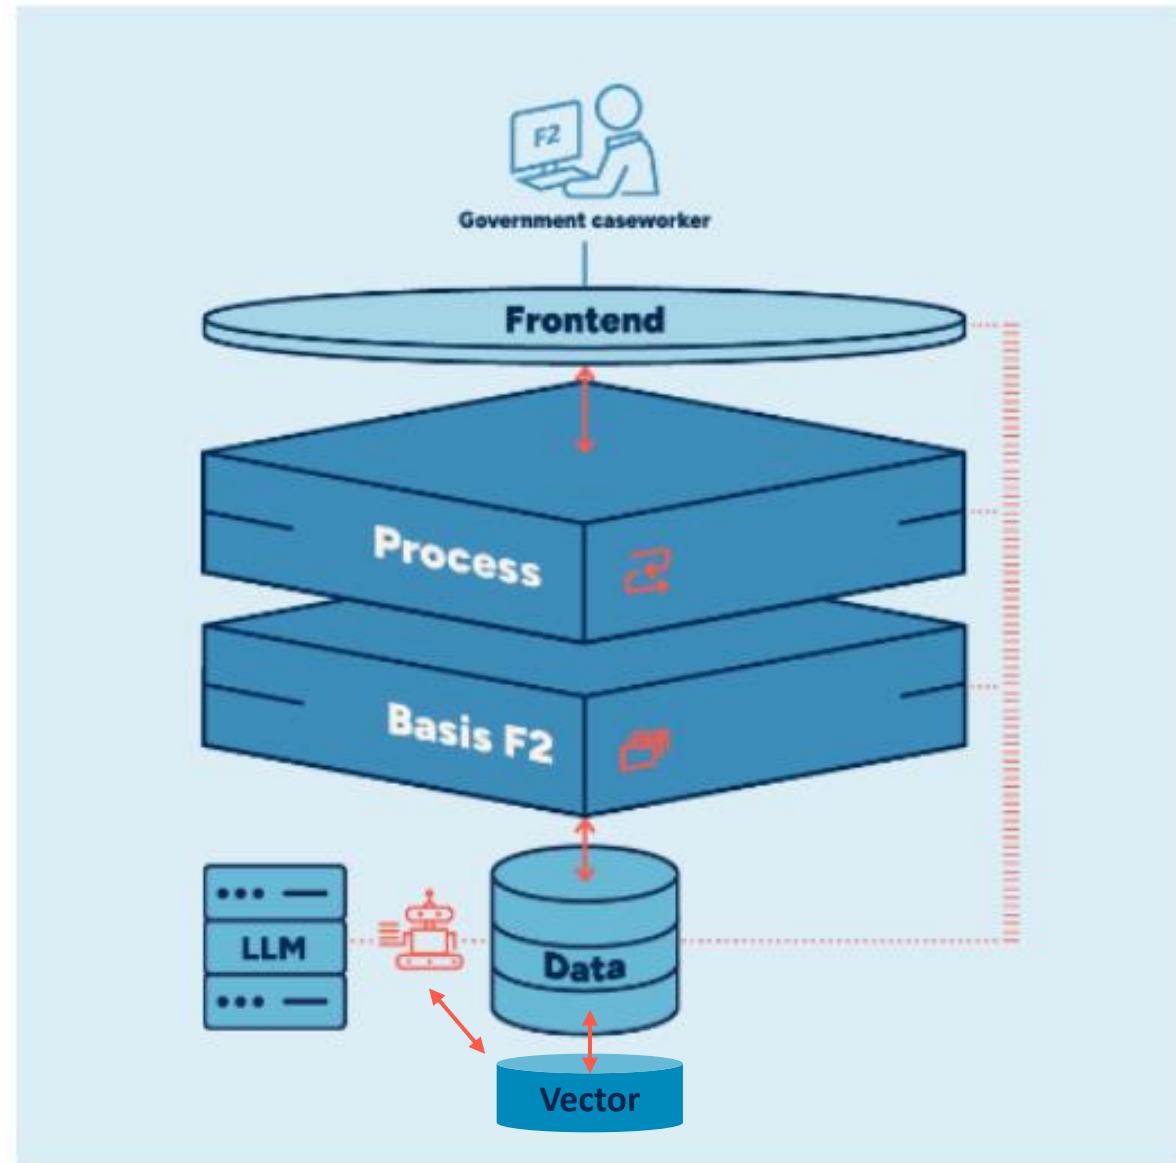

F2 AI Expert

In the next example we have used the Keyword: XX

We will show some example of the information that is tagged with the Keyword.

And based on this Truth we can start to ask for assistance via our prompts.

Interreg - AI

Waht is a partner doing in interreg

In an Interreg project, partners play crucial roles that contribute to the overall success and impact of the initiative. Here are some key activities and responsibilities that partners typically undertake:

1. **Project Development**: Partners collaborate on designing the project proposal, defining objectives, and outlining the work plan. Each partner brings their expertise and local knowledge to ensure the project addresses relevant regional challenges.

2. **Implementation**: Once the project is approved, partners implement various tasks as outlined in the project plan. This can include:
   - Conducting research or studies.
   - Developing and testing new methods, tools, or practices.
   - Organizing events, workshops, or training sessions.
   - Creating educational materials or communication strategies.

3. **Financial Management**: Partners are responsible for managing their share of the project budget, ensuring that funds are used efficiently and in accordance with Interreg regulations. This involves tracking expenses,
