State aid update

Interact

**Co-funded by
the European Union**
Interreg

State aid in Interreg

Current state:

- Interregs use (almost) exclusively GBER art. 20, 20a and de minimis
- One programme (IT-CH) using State aid advances
- State aid in Interreg - 1,5h webinar in the 2nd half of the year

GBER:

- GBER set to expire at the end of 2026
- No new official draft yet
- Various ideas on the table

De minimis

Administrative proceedings (until 31 December 2025 (2028)):

- self-declaration / check of de minimis register
- de minimis letter
- De minimis set to expire at the end of 2029

Registers:

- As of 1 January 2026 use of national register or Union level central register obligatory
- The approach is to model the central register on the transparency module (TAM)
- 10 EU MS currently WITHOUT the national registries AT, BE, DE, DK, FI, FR, GR, IE, NL, SE
- 16 EU MS currently WITH the national registries: BG, HR, CY, CZ, EE, ES, HU, IT, LV, LT, LU, PL, PT, SI, RO, SK

Sector specific rules - current thresholds:

- Fisheries and aquaculture: EUR 30,000 / EUR 40,000 in Member States with a central register
- Agriculture: EUR 20,000 / EUR 25,000 in Member States with a central register
- Services of General Economic Interest: EUR 750,000

Interreg

Jems development

End of Development phase

20 December 2024 – Release of Jems Version 12

New features in Jems v11 and Jems v12 relevant for Auditors:

- Financial living tables
- Bulk file download
- 1-click export of UI tables to excel
- Update of procurements

New Export Plugins:

- Global partner list of expenditure XLS export

Jems – 2025-2029 Maintenance phase

June 2025 – Release of Jems Version 13

Bug fixes and small improvements:

- Financial living tables
- Corrections form
- Partner report overview tables – Investments
- Control report pdf – Job Title
- Add report ID to update of procurements
- Increase number of attachments for procurements from 30 to 120

Jems – 2025-2029

Maintenance phase

Maintenance phase

1 Jan.

- Address bugs and security findings
- Update Jems modules to improve performance and enhance security
Implement minor developments to improve user experience
- Integrate potential community-driven developments
- Maintain and support Interact channels
- Jems user group network

End of Maintenance phase

31 Dec. 2029

Jems audit – KR6

Report

City of Vienna, Municipal Department 27,
Vienna

Independent assurance report on the reasonable assurance
engagement of the Joint Electronic Monitoring System (Jems)

For the Jems version 10.1, as of October 2024

Conclusion PwC

In our opinion, which is based on our findings and evidence obtained during our reasonable assurance engagement, Interact's Joint Electronic Monitoring System (Jems) was prepared in accordance with the EU Regulations (EU) 2021/1060 (CPR) and 2021/1059 (IR).

Interact recommendation

Recommendation to take into account the results of PwC audit and not to reaudit the whole system, focus on the local installation of Jems.

Proposal

Online meeting with Jems team

Meeting only for auditors

- Many specific questions regarding Jems
- Q&A session
- Please indicate your needs and possible time horizon (July / after the summer) in the meeting evaluation form!

INDEX – Interact Data Exchange

Interact

Co-funded by
the European Union
Interreg

Index is an integral part of **Interact** service offer

Index is a programme management tool that allows exchange of data from the application stage. It provides space for programme exchange.

And other programme monitoring systems provide data for exchange and visualisation

Publicly available data repository on projects, deliverables and partners

Index in short

Main principles

- Automation: limited to no additional workload for programmes
- Fact-based cross-programme cooperation initiatives
- **Already from the assessment stage**
- Works with **data that is not public**

Flexible in defining user cases

- To identify synergies and build on these
- To ensure Value for Money
- To ensure financing only new initiatives

Currently shared data fields

A.1 Identification

A.2 Summary

B.1 Partners

C.3 Relevance and context

C.4 Work plan

D.1 Funding

D.2 Budget

Work packages

- Title
- Communication objectives
- Activities descriptions
- Outputs
- Investments

INDEX – how does it work?

Feedback from programmes

User feedback

Meeting with programmes involved in the Baltic Sea region programme pilot held on 14.11.2023.

Data available at any time needed

Easy access to live data accessible at any time needed. Use of data has been integrated into programme assessment procedures

No negative overlaps

The first experience using Index shows that there are no negative overlaps across programmes

Possibility to support MC discussion

Possibilities to prepare statistics and visualisations for MC as well as inform about links with applications in neighbouring programmes.

Possibility to follow project development across programmes

Synergies are often built at partner level. Index allows seeing partner engagement and how project chains are built over time.

SCO cases

SCO - Case 1 Audit of operations

	Real costs	
External	Project kick-off meeting: premises	4 500
	Project kick-off meeting: catering	7 000
	First training for students: premises & accommodation	4 000
	First training for students: catering	2 500
	First training for students: external expert	1 600
	External services TOTAL	19 600
Equipment	Laboratory Equipment, through framework contract	28 400
	Equipment TOTAL	28 400
	Expenditure reported as real costs TOTAL	48 000
FR %	SCOs	
20 %	Staff Flat rate	9 600
15 %	Office and Administrative Flat rate	1 440
10 %	Travel & Accommodation Flat rate	960
	SCOs TOTAL	12 000
PROJECT PARTNER TOTAL EXPENDITURE		60 000

FOCUS ON SCOs

- What to check and what not to check from SCO point of view
- Procurement among basis costs

Reported activities of the project: Organisation of kick-off meeting, conducting the first training for students, including laboratory work.

SCO - Case 1 Audit of operations

- what to check and what not to check in **general ledger**
 - other relevant points of attention

Expenditure reported as real costs TOTAL 48 000		
FR %	SCOs	
20 %	Staff	9 600
15 %	O&A FR	1 440
10 %	T&A FR	960
SCOs TOTAL		12 000

PROJECT PARTNER TOTAL EXPENDITURE 60 000

General ledger	
Salaries total	8 700
Rent	850
Communication	400
Travel	200
Accommodation	0
External services	19 600
Equipment	28 400
COST CENTER TOTAL	58 150

SCO - Case 1 Audit of operations

- what to check and what not to check in **general ledger**
- other relevant points of attention

No checks are to be performed on:

FR %	—	The actual costs incurred by the beneficiary or related (financial) supporting documents for the amounts reimbursed on the basis of a flat rate;
20 %		
15 %	—	Supporting documents to check that the amount of the flat rate was spent by the beneficiary on the correct cost category;
10 %		
	—	The accounting system of beneficiaries.

PROJECT PARTNER TOTAL EXPENDITURE 60 000

COST CENTER TOTAL 58 150

SCO - Case 2 Audit of operations

	Real costs	
Staff	Staff cost	42 000
	Staff TOTAL	42 000
	Expenditure reported as real costs TOTAL	42 000
FR %	SCOs	
40 %	other costs	16 800
	SCOs TOTAL	16 800
PROJECT PARTNER TOTAL EXPENDITURE		58 800

- What to check and what not to check from SCO point of view
- Other points of attention

Reported activities of the project: Organisation of kick-off meeting, designing and conducting the first training for students at remote research centre.

SCO - Case 3 Audit of operations

- what to check and what not to check
 - audit findings
- other relevant points of attention

A cultural NGO was awarded a €20,000 lump sum to deliver Work Package 2: "Cross-border community art exchange" including:

- Two 3-day workshops (one in each country)
- A travelling exhibition
- A final video documentary

The NGO reports organising two workshops and the exhibition and replacing the video documentary with a digital photo gallery published online. The lump sum was paid out, as the main outputs — the exhibition and 2 workshops — were delivered.

What is AI ?

The ability of machines or computers learn and think like a human

Benefits of AI in public funds management

- Reduced administrative burden
- Increased efficiency and accuracy
- Automated risk detection and fraud prevention
- More accurate forecasts and financial planning
- Better services and support for beneficiaries

Legal and Ethical considerations

- AI Act: Introduces a regulatory framework
- GDPR: Data protection, transparency, consent obligations
- Ethical Use: Human oversight, fairness, accountability
- Compliance rules: No sensitive data in public AI tools
- Property rights: No copyright for AI generated content

Reliability considerations

- Bias, hallucination, and accuracy risks due to poor data quality or representativeness
- Lack of explainability in AI logic (non-transparent algorithms)
- Cybersecurity vulnerabilities and data breaches
- Risk of over-reliance on automation, insufficient human oversight

Tips for public AI tools

Prepare input data:

- refine data, shrink file size
- remove confidential or sensitive data

Assess outputs:

- always check the sources
- never copy/paste – refine the outputs

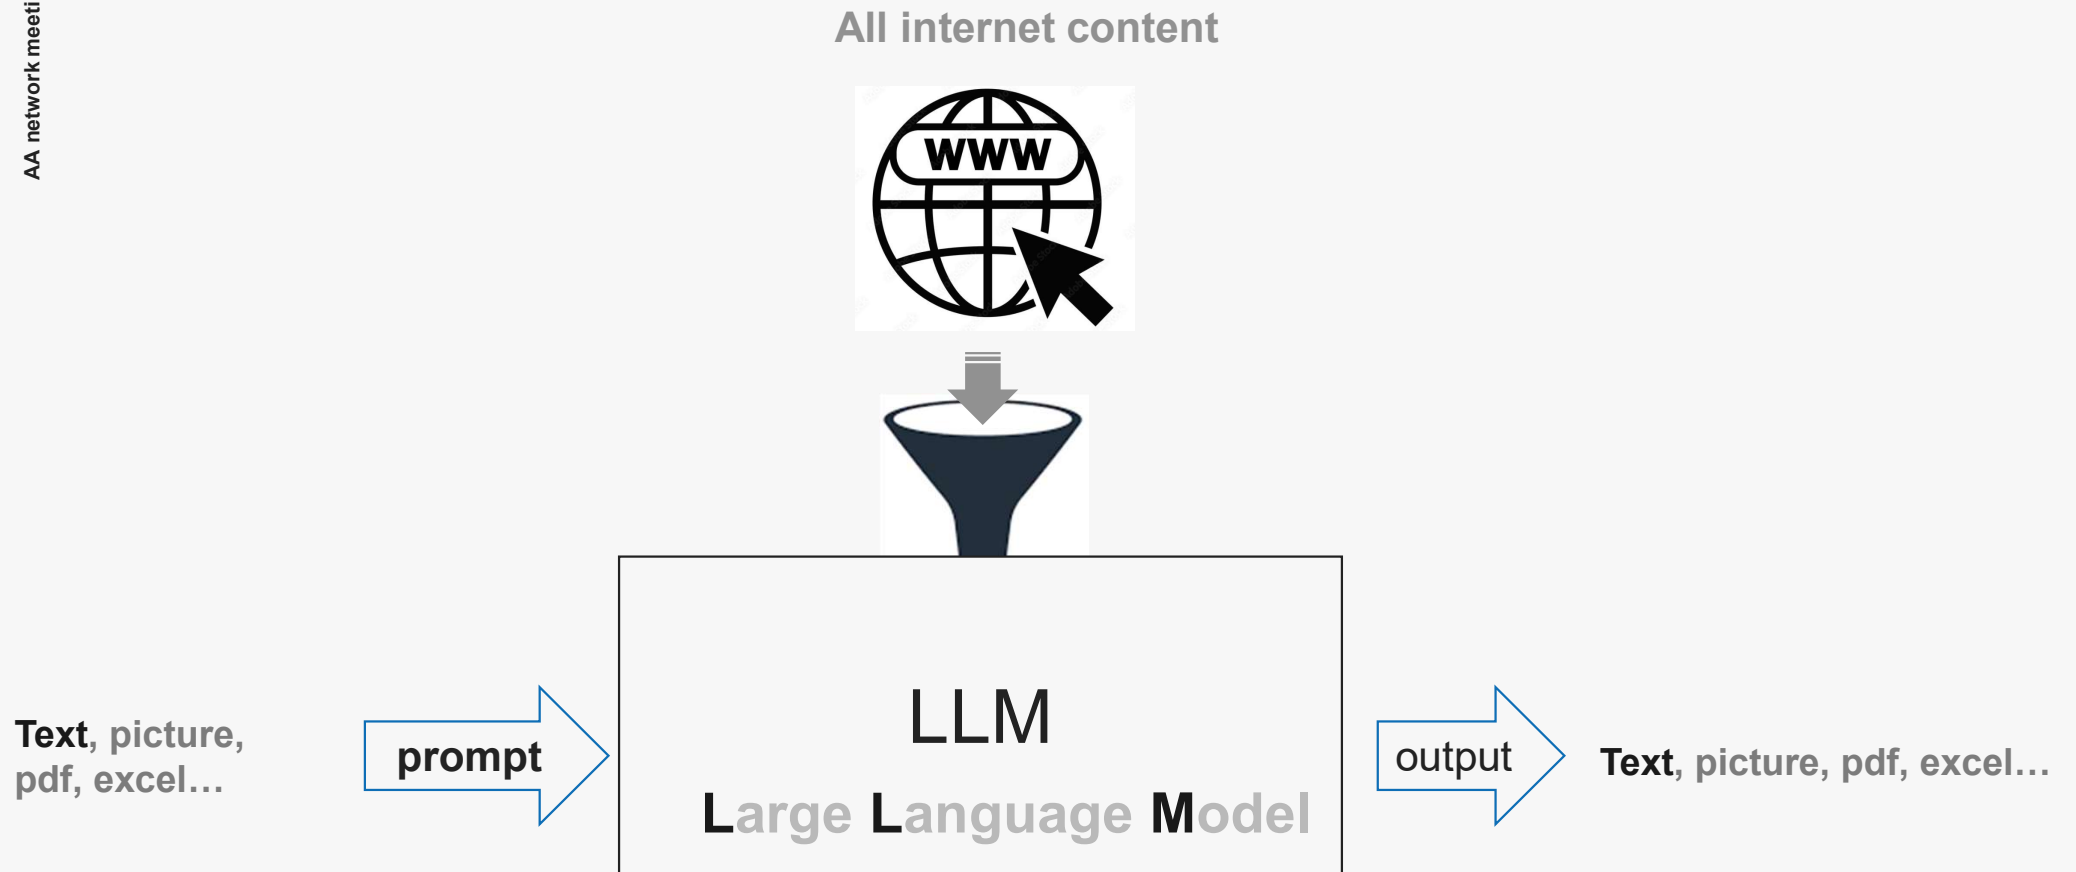

Photo by ThisIsEngineering, Pexels, CC

The tools

ChatGPT: Research, writing, drafting

Microsoft Copilot: Chat GPT 4 + Dall-E 3 + Bing

Google Gemini: Multimodal (text, image, audio, code, etc.)

Claude AI: Focused on safe and natural conversation

TextCortex: AI hub, persona, GDPR, EU hosted

Resoomer: Summarize and analyze argumentative texts

Hemingway editor: Improve readability, colour coded guide

Gamma: Make presentations with one prompt

NotebookLM: Advanced research

Canva: Graphic design, creative social media content

What LLMs can do for us?

Better texts

transform long, complex texts into concise and clear language, or generate well-structured text based on a few bullet points

Time saving

reduce the time spent each week on tasks such as drafting, summarizing, analyzing, and explaining background information

Tailored contents

adapt the tone and structure of a text to suit different purposes, audiences, and contexts

The secret **is in the prompts**

- “**Summarize** this text, make it shorter and easy to understand.”
- “**Compile** the comments of two independent controllers **into a concise summary**”
- “Help me write a professional **response to this complaint** about the time needed to conduct control explaining the procedure for management verifications in Interreg based on the Interreg Regulation.”
- “Help me **draft a guidance text** for beneficiaries on the rules for eligibility of expenditure.”
- “**Analyse** this contract and the related invoice and provide me with most important data about the services provided and the consistency of the documents.”

Risk scoring systems (Arachne+)

Providing the data will be obligatory under the next MFF:

on the recipient, legal person

- recipient's full legal name, VAT identification number or another unique identifier established at country level
- the address
- the beneficial owner(s) of the recipient, where the recipient is not a natural person: the first name(s), last name(s), date of birth, and VAT identification number(s) or tax identification number(s) where available or another unique identifier at country level

on the recipient, natural person

- the first and last name; the date of birth;
- the region on NUTS 2 level when the recipient is a natural person and is domiciled in the Union or the country when the recipient is a natural person and is not domiciled in the Union;

Risk scoring systems (Arachne+)

on the operation:

- the amount committed and, in case of a commitment with multiple recipients, the breakdown of this amount per recipient where available;
- the nature and purpose of the measure.

Article 36, recast Financial Regulation 2024

Risk scoring systems (Arachne+)

Annex 1: Consolidation of risk indicators

Current Arachne Risk Indicators	Arachne+ Risk Indicators

4.3.2 Project costs outside eligibility period - after end date	consolidated with 4.3.1
4.3.3 Difference between invoice and payment dates	4.3.3 Difference between invoice and payment dates
4.3.4 High percentage of cost allocated at the end of the project	4.3.4 Suspicious expense patterns
4.3.5 Expenses with round amounts	consolidated with 4.3.4

EDES

- Information on cases of early detection, exclusion and/or financial penalties
- Info about entities, in certain cases of fraud or conflict of interest confirmed by a final judgement or administrative decisions and reported by MS
- EC to grant access to EDES to “all persons and entities involved in budget implementation”
- all persons and entities involved in budget implementation shall enforce such decisions with regard to the person or entity applying for or selected to implement Union funds;

Article 144, recast Financial Regulation 2024

CRIF

- CRIF S.p.A, Europe-wide data
- Used alongside with Arachne
- In some MS obligatory use
- Pay per click – cheap reports
- Financial standing, Col, AML, easy checks on individual applicants / partners – PDF report
- Various sanction lists

Whistle-blowers

One whistle-blower can be 100 times more effective than 100 of hours spent on data-mining
