

# Measures in Interreg & intervention logic

---

**5 - 6 May 2026**  
**Draft agenda**  
**Brussels, Belgium**

## Measures in Interreg & intervention logic

5-6 May 2026

### Outline and objectives

Measures will be a central element of the intervention logic for the 2028–2034 programmes. During the event on indicators and the future in Munich, we already began discussing and developing measures that could be relevant for Interreg programmes. Building on that first exchange, this event will provide an opportunity to continue this work in a more structured and practical way.

The main objective of the event is to work in small groups to develop and refine measures that are relevant for Interreg programmes. In particular, the groups will be invited to define the key elements of these measures, including intervention field (number), milestone or target (number), unit of measurement, baseline, interim milestone(s)/ target(s), indicative timeline for achievement, etc

In the final session of Day 1, we would like to open a discussion on the link between **programme intervention logic** and **project intervention logic**. In this session, we would like to explore questions such as: What does this link look like in practice? Does it differ depending on the type of project, for example in the case of Small Project Funds (SPF)? Does the choice of working with upper-level and/or lower-level measures affect this relationship?

On Day 2, each group will present the measures they have developed. A representative of DG REGIO will then provide feedback on these proposals, helping us to reflect on their relevance, feasibility, and potential usefulness for Interreg programmes.

In the final session of Day 2, we would like to reflect together on the proposed **indicators** in **Annex I of the Performance Regulation**. For this discussion, we would particularly like to exchange views with the programmes on the following questions:

- Which indicators, in your view, should still be revised or adjusted?
- Which indicators are currently missing?
- What uncertainties or open questions do you still have regarding the indicators?

We kindly ask you to come prepared for this discussion and to collect feedback in advance from colleagues in your programme.

### Target group

The event is aimed at representatives of Interreg programmes participating in programming and evaluation activities.

### Registration:

The registration is now open. Please access it [here](#).

## Measures in Interreg & intervention logic

5-6 May 2026

Day 1

Tuesday, 5 May 2026

08.30 – 09.00

**Welcome coffee and registration**

09.00 – 09.10

**Introduction and objectives**

*Interact*

9.10 – 13.00

**incl. coffee  
break**

**Measure design**

*Interact and Interreg programmes*

Objectives of the session: Participants will explore the application of the new 2028–2034 intervention logic to Interreg programmes by developing their own measures. In the course of this session, participants will identify programme needs, define where cooperation can create measurable change, develop a measure, and specify its objectives, intervention fields, milestones, and targets.

13.00 – 14.00

**Lunch break**

14.00 – 15.00

**Continuation Measure design**

*Interact and Interreg programmes*

15.00 – 17.00

**incl. coffee  
break**

**Linking programme and project intervention logic**

*Interact and Interreg programmes*

Objectives of the session: Using the measures developed in the previous sessions, participants will reflect on how the 2028–2034 programme intervention logic may shape the intervention logic of projects. The discussion will focus on how this link may work in practice under two different scenarios:

- when P-BA is applied only at the upper level
- when P-BA is applied at both the upper and lower levels

Participants will consider the implications of these approaches for project design and for the relationship between programme-level and project-level logic.

17.00 – 17.15

**Wrap up**

## Measures in Interreg & intervention logic

5-6 May 2026

### Day 2

Wednesday, 6 May 2026

**09.00 – 12:00**  
incl. coffee  
break

#### **Measure review**

*Interreg programmes, DG Regio representative*

Objectives of the session: This session will allow participants to present the measures they have developed and receive feedback from a DG Regio representative, as well as from other groups. Building on this exchange, participants will reflect on the criteria that may help define what makes a “good” Interreg measure and discuss how these criteria could support the future development of measures across programmes.

**12.00 – 13.00**

#### **Lunch**

**13.00 – 15.00**

#### **Indicator reflection (Annex I, performance regulation)**

*Interact, Interreg programmes*

Objectives of the session: This session will invite participants to reflect on the proposed indicators in Annex I of the Performance Regulation and to exchange views on their suitability for Interreg programmes. The discussion will focus on identifying indicators that may need to be revised, indicators that may be missing, and any remaining uncertainties or open questions regarding their use and interpretation.

**15.00 - -15.30**

#### **Wrap up and next steps**
