What's next; Wrap-up and closure

Controllers workshop 2027

Events – autumn 2026/online

- P-BA in Interreg – the basics
- SCOs annual event
- Goodbye cost checks 2?

Interact Academy

The screenshot shows the Interact Academy website interface. At the top, there is a navigation bar with the logo on the left and links for 'About', 'Catalogue', and 'Contact'. A search bar and a 'Log in' link are on the right. The 'Catalogue' dropdown menu is open, showing options for 'Certified trainings', 'Certified courses', and 'Short courses'. The 'Certified courses' page is displayed, featuring a search bar, a 'Sort (none)' dropdown, and icons for grid, list, and menu views. A paragraph explains that certified courses offer in-depth learning on specific Interreg-related topics and must be completed within 12 months. Below this, three course cards are shown: 'Interreg for beginners' (starting 20 May 2025), 'Simplified Cost Options: Foundations' (starting 18 Jun 2025), and 'Jems for Controllers' (starting 11 Jul 2025). Each card includes a 'Learn today!' button, a 'Certified course' badge, and a 'View Course' button.

- Small project funds

Post 2027

- Future regulatory discussions
- HIT 2028-2034
- Interreg wide consultation
- Performance-based approaches
- Programme own co-Performance-based approaches

Performance-based approaches

The essence of a performance-based approach (P-BA) is that it emphasizes **what** must be achieved, as opposed to how it must be done.

In P-BA, clear performance goals are defined in advance. Payments are linked to meeting these pre-agreed goals, not to expenditures or activities undertaken. The focus shifts from inputs to outputs.

Even before the Commission published the draft Post 2027 regulatory package, it was evident that we were moving toward P-BA. Now it is clear that this approach will (subject to Member State agreement) be the delivery mechanism between the Commission and the programmes. This means that success of programmes will be measured by the achievement of agreed **milestones** and **targets**.

This approach (or the use of simplified cost options) is also *recommended for payments between programmes and projects*.

As this model becomes the standard framework, it is important that we understand what it is, how it works and how to operate effectively within it.

Where to start

Once you have read the draft regulatory package, particularly the [Performance Framework Regulation](#), you can proceed to the Interreg Knowledge Fair presentation, "An elementary Performance-based approach (P-BA) experience".

As simply going through the materials and slides does not always provide the full picture, we invite you to explore what we are currently working on below and join us.

Interreg Management Verifications Certified Training

Registration is ongoing for the fourth cohort of the Interreg Management Verifications Certified Training, starting on **2 March**.

The training is designed for beginner-level controllers working in centralised and decentralised control systems of Interreg programmes.

If you're new to the role - or would like to recommend it to colleagues - this is a great opportunity!

We look forward to welcoming the new cohort!
 Alexandra, Florin and Jasmina

👤 Dauti-Oda Valendrina 👤 10/04 09:20

Will you organise another Interreg Management Verifications Certified Training?

👤 Alexandra Kulmer | Interact 14/04 14:30 Edited

Dear Valendrina!
 Thank you for your interest! With the fourth cohort now completed, we are evaluating the overall demand before deciding on future editions. Participation has gradually decreased across cohorts, so we will carefully assess the need for another one next year.
