HIT consolidated meeting

2 December 2026

Online

Outlines

For several programme periods, HIT has supported the harmonisation of Interreg project-specific templates. As the current programme period progresses and with the draft regulation nearly fully published for the Post27 period, it is time to reflect on the HIT process, assess its added value, and identify areas for improvement.

In the HIT consolidated meeting we present the overall progress of HIT. Interact will present how the HIT groups have been progressing and how the templates are coming together. We might also make some harmonisation agreements for the sake of consistency of the work done between the different HIT groups.

Objectives

This event aims to:

- Give an overview of the work done by the HIT groups so far.
- Brainstorm and clarify any major cross-cutting discussions.

Target group

MA/JS staff of Interreg programmes that are involved in HIT groups that want to see overall progress.

HIT consolidated meeting

2 December 2026

Online

2 December, 2026

9.30 – 10.00

Welcome and introduction

Interact programme

10.00 – 11.15
