## Intervention logic snapshot

14 December 2026

### Outline and objectives

Over the course of this year, Interact has been working together with programmes to explore the intervention logic in light of the latest regulatory framework and the European Commission guidance.

This online session will provide a concise **snapshot of where we currently stand**. Interact – together with the colleagues from DG REGIO - will bring together the main points discussed during previous events and exchanges, highlight the emerging common understanding of how the intervention logic should be developed, and identify the questions and aspects that still require attention.

The aim is to help ensure that programmes have a shared understanding of the intervention logic before the upcoming discussions on HIT next year.

### Objectives

The session aims to:

- provide programmes with an up-to-date overview of the current understanding of the intervention logic;
- summarise the key messages emerging from the latest regulations, European Commission guidance and discussions held with programmes during the year;
- clarify the main steps and considerations when developing an intervention logic;
- highlight areas that require particular attention, including issues that remain open or may need further clarification;
- provide space for programmes to raise questions and exchange on practical aspects of applying the intervention logic; and
- establish a common starting point and shared understanding ahead of the upcoming HIT discussions.

Throughout the event, colleagues from DG REGIO (Tea Kelviser, Oana Dordain) will be present to discuss the latest developments regarding the intervention logic and exchange views with participants.

### Target group

The event is aimed at representatives of Interreg programmes participating in programming and evaluation activities.

### Registration:

The registration is now open. Please access it [here](#).

## **Intervention logic snapshot**

**14 December 2026**

**Monday, 14 December 2026**

**10.00 – 10.10**

### **Introduction and objectives**

*Interact*

**10.10 – 10.40**

### **What we know about the intervention logic so far**

*Interact*

Objectives of the session: Interact will provide a snapshot of the current understanding of the intervention logic, drawing on the latest regulatory framework, EC guidance and the discussions held with programmes throughout the year. The session will highlight the main elements to consider when developing the intervention logic, as well as questions that remain open.

**10.40 – 11.55**

### **Question and answer session**

*Interact, Tea Kelviser, Oana Dordain (DG Regio) and Interreg programmes*

Objectives of the session: The Q&A session will give programmes the opportunity to clarify questions related to the intervention logic and discuss how the current understanding can be applied in practice. It will also provide space to raise remaining uncertainties, compare interpretations and identify issues that may need further discussion ahead of the upcoming HIT work.

**11.55 – 12.00**

### **Wrap up and next steps**
