

JEMS API - USE CASE

HOW WE ARE USING JEMS API IN OUR INTERNAL TOOL TO ADDRESS OUR 6 PROGRAMMES' SPECIFIC NEEDS

- INTERREG VI-A ROMANIA – BULGARIA
- INTERREG VI-A ROMANIA – HUNGARY
- INTERREG IPA ROMANIA – SERBIA
- INTERREG VI-B NEXT BLACK SEA BASIN
- INTERREG NEXT ROMANIA – REPUBLIC OF MOLDOVA
- INTERREG NEXT ROMANIA – UKRAINA

JEMS API USE CASE – CHECKLISTS & PROJECT RANKING

□ OUR PROGRAMMERS' NEEDS:

- TO COMPARE THE CHECKLISTS SUBMITTED BY THE ASSESSORS IN JEMS
- TO SEE THE DIFFERENCES IN SCORING BETWEEN THE ASSESSORS EQUAL OR HIGHER THAN A NO. OF POINTS
- TO SEE A RANKING LIST OF PROJECTS BEFORE FUNDING DECISION

□ THE SOLUTION FOUND: **BeMS Tools**

- WE DEVELOPED IN-HOUSE A FUNCTION EASY TO USE INSIDE OUR PLATFORM, CONNECTED TO THE 6 JEMS APIS
- THE FUNCTION DISPLAYS THE CHECKLISTS IN THE FORM REQUESTED BY OUR PROGRAMMES
- BEMS TOOLS ALLOWS USERS TO CONNECT WITH THE SAME ACCOUNT USED IN JEMS

□ WE WILL DEMONSTRATE HOW IT WORKS AND HOW OUR USERS CAN BENEFIT FROM IT
