

Programme developments

Vienna 13.03.2023

Interact

**Co-funded by
the European Union**
Interreg

Programme own developments

- Tool - Jems API use cases (Interreg V-A Romania – Bulgaria)
- Reports via Jems Database (Interreg Slovenia – Hungary)

Community developments (integrated in Jems V7)

- Filters on controllers assignment page (Interreg Central-Europe)
- Restricted information on controllers assignment page (Interreg Central-Europe)

Planned developments

- **Central Europe** is developing first the necessary pdf-export plugins, such as the Partner report export.
- **Alpine Space** is looking into developing:
 - a payment order plug-in,
 - SFC transmission of data (tables 1,2,5 and 9)
- **NPA** is looking into developing:
 - Add project reporting and verification and payment data to programme export (XLS)
 - Add partner reporting and verification and payment data to programme export (XLS)
- **NWE** is looking into developing a comprehensive List of all expenditure ever declared by a partner and project (XLS)
- Based on NWE developments, **Central Europe** is looking into developing the Partner report LoE (XLS) and LoE per project (XLS)

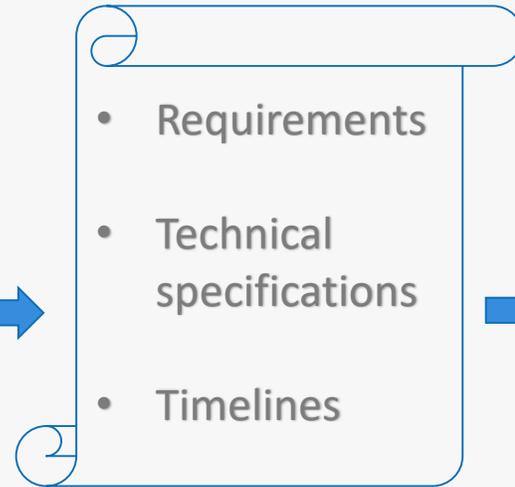

See list of community wanted features →
